

i-tec USB-C Metal Docking Station for Apple MacBook Pro + Power Delivery

i-tec USB-C Metal Docking Station for Apple MacBook Pro 13" a 15", 1x HDMI 4K / 30 Hz, 1x USB-C 3.1 (data and video 4K / 60Hz), 1 x USB-C for Power Delivery, 1x SD card reader and 1x MicroSD card reader, 2x USB 3.0, Power Delivery 100W, MacOS

PRODUCT DESCRIPTION

Expand your world of possibilities and don't limit yourself by a lack of ports on your new MacBook Pro! Having just a few Thunderbolt 3 ports and need to connect your favourite devices, external monitor or projector, or download data from your flash card? No problem!

Although tiny in size, this docking station will provide you with all the connectivity you need when in office, or while on the go. HDMI port can connect you seamlessly to external monitor, TV or projector, in up-to 4K (3840 x 2160 / 30Hz). MicroSD and SD card readers will come in handy when e.g. copying data/ photographs from your camera, smartphone or any other device. 1x USB-C and 2x USB 3.0 (USB 3.1 / 3.0 / 2.0 compatible) are ready to connect all your favourite devices. Charging is also not a problem – just plug your charger into the charging USB-C port, and all is set!

Our goal while designing this dock was to create a capable, highly reliable, and truly "handy" companion, which you may virtually carry in your pocket. It is quick and easy to set-up and with no external power supply or driver download, simply plug & play.

Compared with other products in this class, this station is carefully proposed so that it precisely corresponded to the height of your laptop and to its USB-C ports, that's why it is high stable after connection; no outages of signals occur and USB-C ports of your laptop are not loaded.

Long product description: i-tec USB-C Metal Docking Station for Apple MacBook Pro 13" a 15", 1x HDMI 4K / 30 Hz, 1x USB-C 3.1 (data and video 4K / 60Hz), 1 x USB-C for Power Delivery, 1x SD card reader and 1x MicroSD card reader, 2x USB 3.0, Power Delivery 100W, MacOS

PRODUCT FEATURES

- 2x integrated USB-C 3.1 ports for connecting the docking station to the MacBook Pro (late 2016 and up)
- Graphic interface: 1x HDMI - 1 monitor - 1x HDMI cable → 4K / 30Hz
