

## i-tec USB-C Metal 4K Docking Station + Power Delivery 85W

i-tec USB-C Metal 4K Docking Station, Video 1x HDMI, 1x GLAN Ethernet, 4x USB-A 3.0 including 1x Fast Charge port, 1x Audio / Microphone Jack, / 1x 85W USB-C Power Delivery Port, Power Adapter 100W, On/Off Switch, for Laptops, Tablets, Windows & Mac OS, Compatible with Thunderbolt 3

### PRODUCT DESCRIPTION

Expand the world of your possibilities! Using one single cable, you can convert your USB-C or Thunderbolt 3-based notebook or tablet into a powerful, multifunctional workstation that connects you with all your accessories as well as a powerful monitor. Installing this docking station is extremely simple - just plug in the USB-C cable and get it done; your operating system will take care of the drivers' installation. The docking station allows you not only to connect your favorite device with the USB interface but also to charge your notebook through the USB-C port up to 85W. Do not limit yourself with the notebook display area and connect to an external monitor up to 4K (3840x2160@30Hz) through the HDMI interface. With an integrated LAN port, you can connect to the computer network and the Internet safely, easily and quickly (the station supports 10/100/1000 Mbps). You do not have to worry about WIFI interception, signal interference, and you will also save electricity.

This docking station offers you four USB 3.0 ports that, thanks to backward compatibility, will be able to work not only with your USB 3.1 and 3.0 devices but also with 2.0. One of the ports on the docking station is also equipped with the BC 1.2 specification, which means that your USB device (such as a mobile phone or tablet) will be charged up to 4 times faster than via a conventional USB port! you will appreciate full multimedia experience at work or entertainment in complete privacy with an integrated audio jack that lets you connect your headphones and microphone.

To ensure unimpaired video signal transfer, the video signal output from the notebook/tablet, encapsulated in USB-C signal, must comply with the VESA DisplayPort standard. Without this, a fault (i.e. image flickering) may occur. Notebooks that do not automatically comply with the VESA standard, for example the ACER Switch Alpha 12" or ACER TravelMate X349-G2-M, may still work, although the video quality cannot be guaranteed.

Please make sure to check a compatibility of your device, whether it meets all the requirements for an operation of the specific i-tec product, especially video output (Display Port Alt mode), and/or Power Delivery. If your device would not be fully compatible, your new i-tec product may not operate correctly. You may find the specifications your device (i.e. USB port), in a user manual supplied with your notebook/tablet/smartphone, or - alternatively - via customer service provided by a manufacturer of your device. If still uncertain, however, contact our service at [support@itecproduct.com](mailto:support@itecproduct.com).

Long product description: i-tec USB-C Metal 4K Docking Station, Video 1x HDMI, 1x GLAN Ethernet, 4x USB-A 3.0 including 1x Fast Charge port, 1x Audio / Microphone Jack, / 1x 85W USB-C Power Delivery Port, Power Adapter 100W, On/Off Switch, for Laptops, Tablets, Windows & Mac OS, Compatible with Thunderbolt 3

## PRODUCT FEATURES

- 1x USB-C port for connecting to the host device
- Power Delivery: 85W
- Video port:
  - 1x HDMI
- Supported Resolutions:
  - 1 monitor - 1x HDMI → up to 4K/30Hz
- 3x USB 3.0 port
- 1x USB 3.0 port with fast charge support (BC 1.2)
- 1x Ethernet GLAN RJ-45 port (Realtek RTL8153)
- 1x 3,5mm Audio combo port
- 1x Power input (DC 20V/5A)
- On/Off switch
- LED indicator
- Cable USB-C (100cm)
- OS: Windows 10, macOS X, Android, Chrome OS Google with the latest updates
- Product dimensions: 95 x 91 x 32 mm
- Product weight: 375 g
- Package dimensions: 186 x 167 x 95 mm
- Package weight: 1304 g

## SYSTEM REQUIREMENTS

### Hardware requirements:

- Device with an available USB-C or Thunderbolt™ 3 port

### Power Delivery Requirements:

- Host device with an available USB-C or Thunderbolt™ 3 port that provides Power Delivery support

### Video output requirements:

- Device with an available USB-C port with “DisplayPort Alternate Mode” support or a Thunderbolt™ 3 port

### Operating System:

- Windows 10, macOS X, Android, Chrome OS Google with the latest updates
