

i-tec USB Quick Charge Smart Charger 5 Port 52 W

i-tec USB Quick Charge Smart Charger 5
Port 52 W

PRODUCT DESCRIPTION

i-tec USB Quick Charge Smart Charger 5 Port 52 W is an AC USB charger for mobile phones, tablets, GPSs, powerbanks, music players, cameras and other digital devices. You can charge four devices through four USB-A outputs and one device through one Quick Charge 3.0 output. You can charge up to 5 USB devices at the same time. All the DC 5 V / max. 2.4 A USB ports are designed to charge mobile devices requiring a large supply current quickly and efficiently. In addition, they have special identification circuits for iPad/iPhone and Samsung phones and tablets.

One big feature of this adapter is the 1x **USB-A Quick Charge 3.0** output, which can be used to quick charge mobile phones supporting this feature*. Quick Charge 3.0 can charge your mobile phone from 0 % to 80 % in just 35 minutes, which is four times faster than normal charging. Quick Charge 3.0 is also backward compatible with 2.0 and 1.0 versions in case your mobile phone supports one of these older versions**.

The AC 100-240 V input allows for worldwide use. You can use this USB charger at home, in business centres as well as in offices.

In case of installation problems, technical issues or improper functionality related to this device, first check for possible solutions under the FAQ tab.
