

i-tec USB 3.0 4K Ultra HD Display Adapter - Display Port

i-tec USB 3.0 4K Ultra HD Display Adapter
- 1x Display Port 4K Ultra HD 3840x2160
px, External graphic card

PRODUCT DESCRIPTION

The ADVANCE Series is the highest level of i-tec accessories bringing you the cutting edge technologies of products with a modern design and exclusive packaging.

This adapter enables you to connect additional Display Port monitor with 4K Ultra HD resolution up to 3840 x 2160 pixels to your computer over the USB port. With four times the pixels 4K displays provide vastly more area for working with several application windows open and visible alongside each other.

Excellent for designers, graphic designers, gamers, and other users working with more than one screen simultaneously. Using the "Extend" and "Mirror" modes you can work for example with applications on two monitors (e.g., wide spreadsheets), or you can work on the first screen and search for information on the Internet on the second screen, you can compare several documents simultaneously without constant switching among the open windows, you can display panoramic images on two screens without the need to have another computer etc.

With Plug & Play function is the connection to USB 3.0 port of your computer very simple without the need for complicated installation of an internal graphics card. The adapter is backward compatible with USB 2.0 port, but performance will likely be unsatisfactory. After installing the driver you can immediately start using the monitors without the need for restarting the computer. To a single computer you can connect up to 6 monitors and for each is required one adapter.

In case of problems with the installation, technical difficulties or incorrect function of the equipment, check first for the possible solution in the FAQ tab.

Long product description: i-tec USB 3.0 4K Ultra HD Display Adapter - 1x Display Port 4K Ultra HD 3840x2160 px, External graphic card

PRODUCT FEATURES

- 1x USB 3.0 port for connecting to the host device
- Video port:

- 1x DisplayPort
- Supported Resolutions:
 - 1 monitor – 1x Display Port → up to 4K/30Hz
- Cable from USB 3.0 port to Micro USB 3.0 port (60 cm)
- OS: Windows 7 / 8 / 8.1 / 10, macOS X, Linux Ubuntu 14.04, 16.04, 17.04, 17.10 18.04, 19.04, Android 5 or later, Chrome OS R51 or later
- Easy driver installation ([Windows](#), [MacOS](#), [Ubuntu](#), [Android \(external link\)](#))
- Product dimensions: 75 x 44 x 14 mm
- Product weight: 32 g
- Package dimensions: 220 x 157 x 45 mm
- Package weight: 152 g

SYSTEM REQUIREMENTS

Hardware Requirements:

- Device with an available USB-A port

Operating System:

- Windows 7 / 8 / 8.1 / 10, macOS X, Linux Ubuntu 14.04, 16.04, 17.04, 17.10 18.04, 19.04, Android 5 or later, Chrome OS R51 or later
